Mine Extension
Project**

**Open to all
community
members!**

SOCIAL IMPACT ASSESSMENT WORKSHOPS

You are invited to participate in a community workshop to provide your inputs to the Social impact assessment (SIA) for the Ensham Life of Mine Extension Project. Ensham Mine is located approximately 35 kilometres east of Emerald and 15 kilometres northwest of Comet.

The Project is a proposed underground extension to Ensham Mine's existing operations. The SIA will assess the Project's potential impacts and benefits for social conditions and community values in local communities, and describe actions to mitigate social impacts and maximise community benefits.

The SIA is being undertaken as part of the Project's Environmental Impact Statement, which will support the Queensland Government's assessment of whether the Project should be approved.

Please be advised that COVIDSafe practices will be in place. You are welcome to attend either workshop, please see details below:

COMET
Tuesday, 13th October
4pm - 6pm
Comet School of Arts
35 Ballard Street, Comet
This will be a drop in session
where you are welcome at
any time

EMERALD
Wednesday, 14th October
9.30am - 11am
McIndoe Function Centre
Opal Street, Emerald
This will be a structured, sit
down workshop

**Please RSVP to Mikaela Spencer by
Tuesday, 6th October at
mikaela.spencer@aecom.com**
